Strong points

- A part of the itinerary in the Natural Park of the Ariègean Pyrenees
- The small preserved mountain hamlets
- The wild beauty of the Haute Ariège
- The lake site of the Bassiès ponds
- The wild massif of Aston
- Diversified itinerary between crests, forests, lakes, high mountains, green valleys and summer pasture plateaus

The walk from Aulus-les-bains to Mérens in Haute Ariège connects the western and the central sections of the Pyrenees with the Ariège part of the mountain range. This region is known for its high plateau landscapes, deep valleys hemmed in by soaring summits, sometimes covered with a sprinkling of snow, and mountain lakes whose waters change in colour. In the evening, the Ariège gastronomy will get you back in shape for the next day. From Aulus, the guarded refuge of Bassiès surrounded by lakes will satisfy your desires for wide open spaces. In Vicdessos region, then, the discovery of orris, ancient circular dry stone constructions will allow you to put meaning and images on what is called pastoralism in the Auzat valley. The arrival on Mérens, at the gates of the nearby Capcir and Andorra, after the mountain stage of the Rulhe refuge will finally convince you that you will have to return one day to Haute-Ariège.

•WHAT TO BRING AND PACK

Your main luggage (if package includes luggage transport between accommodations) :

For logistical reasons, we ask you not to bring more than one item/person. Its weight should not exceed 12kg - 15kg.

Your day backpack

The size of your bag varies upon the type of activity.

For a walk without portage : 30L minimum

For a walk with partial portage : 50L minimum

For a walk with portage : 60L minimum

Whatever activity you participate in, you should always carry in your rucksack:

- Rainwear, warm clothing, spare T-shirt, sunglasses, sun cream, first aid kit, picnic kit, personal items, etc.)
- Picnic lunch of the day (bring a plastic box)
- Sufficient water (minimum 1.5 litre water bottle)

Walking Boots

The type of boot depends upon the activities you take part in however they are one of your most important items. They should be comfortable, waterproof and breathable. For the best protection we advise ankle boots.

We recommend our young walkers to wear flexible walking boots with a good sole and back.

For mountain walking for more than 4 hours long we recommend a boot with a fairly ridged sole.

If you need to buy a new pair of boots, we advise you wear them in before the start of your holiday. Don't wear boots that are too small because feet have a tendency to swell up. Be careful with your shoes that have been left in the wardrobe for too long. The lifespan of a shoe is 2 to 5 years. After a while the soles will come off and the seams can tear.

- A wind and rainproof jacket
