Cauterets-Gavarnie: snowshoeing and spa treatments in the heart of the Pyrenees National Park

Your tour briefly

- Easy access from Lourdes station
- Star-shaped itinerary
- Hiking in the Pyrenees National Park
- Accommodation in a **2-bedroom** family gîte in the heart of the old village

Highlights

- Hikes in the Pyrenees' major listed sites: Gaube Valley, Gavarnie, Marcadau Valley, etc.
- Gentle terrain suitable for snowshoeing
- **Access to spa facilities** (5 hours in total) after your hikes

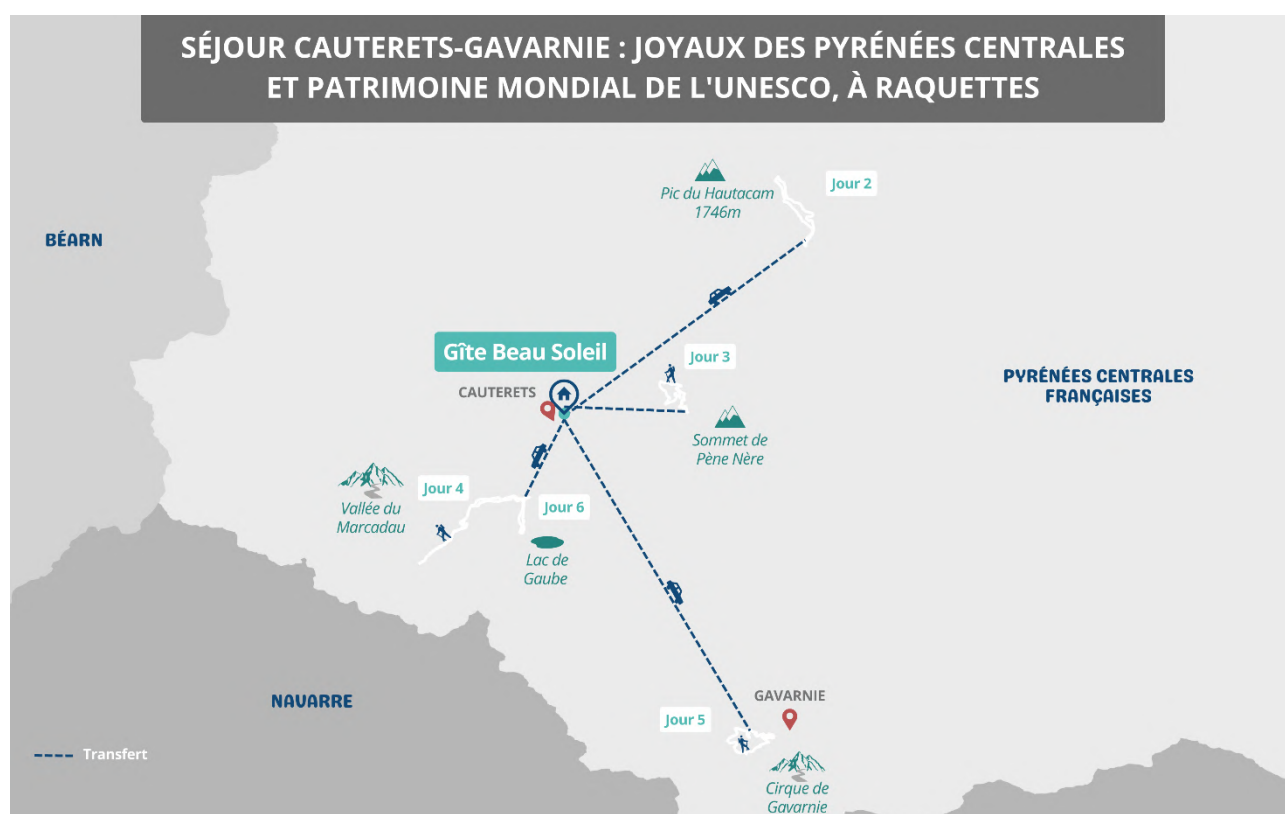

This trip to the heart of the Central Pyrenees allows you to discover some of the most beautiful sites in the Pyrenean mountain range. Starting from Cauterets, you will explore two magnificent valleys reminiscent of Canada: the Gaube Valley and the Marcadau Valley. Immaculate snow-covered landscapes, pine groves, valleys, high peaks, waterfalls and frozen lakes are all on the agenda.

In the Luz St Sauveur valley, you will climb two beautiful, easily accessible peaks, offering superb 360° panoramic views of the region's main peaks over 3,000 metres high: Balaïtous, Vignemale, Néouvielle, Pic du Midi de Bigorre, Taillon... and many more!

Another highlight of the trip is the famous Cirque de Gavarnie with its many peaks over 3,000 metres high, frozen in winter. Home to the largest waterfall in Europe (423 metres), the Cirque de Gavarnie with its magnificent architecture cannot be described, it must be contemplated and discovered. Listed as a UNESCO World Heritage Site, this natural glacial cirque impresses with its size and height, its walls reaching nearly 1,500 metres.

In the unspoilt and wild setting of the Pyrenees National Park, you can explore gentle trails that are particularly suitable for snowshoeing.

After your hikes, the Les Bains du Rocher spa complex offers you a well-deserved moment of rest and relaxation!

•PROGRAM

NB: The order of the hikes is subject to the decisions of our mountain guide, who is the sole judge based on the level of the participants and the weather.

Day 1: Start of your stay in Lourdes

Meet at 5.45 pm at Lourdes station and transfer to Cauterets (35 mins). Check into your accommodation. Briefing about your stay.

Day 2: Pic de Hautacam, a fantastic viewpoint over the Central Pyrenees

Transfer (45 min). Among the most beautiful viewpoints that are easily accessible in winter, the Hautacam peak deserves a place of honour. Easily accessible from the Hautacam ski resort, it offers an exceptional 360° panorama of the plain and many peaks of the Central Pyrenees. From Balaïtous to Pic du Midi de Bigorre via Vignemale and the '3000' peaks of Gavarnie, the view from a summit of this altitude (1,746m) is incredible!

• **Distance: 11km, duration: 4 hours, ascent: +280m, descent: -280m.**

Day 3: The Riou Pass and the summit of Pène Nère

Transfer (50 min). Starting from Luz Ardiden resort, a gentle climb takes you to the Col de Riou pass between the Cauterets valley and the Luz St Sauveur valley. The route then follows a superb ridge to the summit of Pène Nère. Magnificent views of the Néouvielle massif and the Troumouse cirque, as well as the peaks overlooking Cauterets.

• **Distance: 9km, duration: 4 hours, ascent: +420m, descent: -420m.**

Day 4: The Marcadau Valley and Refuge

Short transfer (15 min). A little corner of paradise, the Marcadau Valley is one of the most beautiful valleys in the Pyrenees. The route, punctuated by the magnificent Cayan plateau, waterfalls and forests, makes this site a veritable 'little Canada'. Arrival at the Grand Refuge Wallon, where the view of the high peaks on the border (Vignemale, Grande Fache, Cambalès, etc.) will be the last highlight of the day!

• **Distance: 16km, duration : 5h45, ascent : +420m, descent : -420m.**

Day 5: The Gavarnie Cirque

Transfer (55 min). Today's goal is to discover the Gavarnie Cirque from different viewpoints. First, we will travel across the Peyrenère plateau, with its gentle slopes offering superb views of Gavarnie. This will be an opportunity to better understand the work of the glaciers that shaped these landscapes, which we are now seeing disappear before our eyes... Then, we will explore the village of Gavarnie and observe the heart of the cirque, its frozen waterfalls and the immensity of its vertical walls.

- **Distance: 14km, duration: 5.5 hours, ascent: +450m, descent: -450m.**

Day 6: Lake Gaube

Short transfer (15 min). Starting from the Pont d'Espagne, you will walk through the famous and unmissable Gaube Valley. After crossing the forest along the Gave, you will come to the beautiful frozen Lake Gaube. In the distance, the majestic north face of the Vignemale, the highest peak in the French Pyrenees, comes into view. In the early afternoon, after your hike, return to your accommodation to freshen up, then transfer back to Lourdes station.

- **Distance: 5.5km, duration: 3.5 hours, ascent: +270m, descent: -270m.**

The programmes have been drawn up based on the latest information available at the time of writing: unforeseen circumstances are always possible and situations beyond our control may affect the course of the trip. Once on site, our guides are the best judges and may decide to change the itinerary depending on the weather or if the safety of the group requires it.

• MEETING POINT AND END OF STAY

OTHER ACCOMMODATION OPTIONS

On certain dates, the size and distribution of the group according to the type of rooms means that we work with another accommodation partner in Cauterets. If this is the case, you will be informed before your registration is confirmed, so that you can make your own decision.

• THE BATHS OF THE ROCK (BALNEOTHERAPY SUPPLEMENT)

In a minimalist mineral setting, made of stone and noble materials, in a cozy and intimate atmosphere, the Les Bains du Rocher thermal spa offers a program of relaxation, well-being, and aquatic fitness.

Bubble beds, swan necks, indoor pools, hammam, sauna, salt stone relaxation room...

The world of Les Bains du Rocher allows you to enjoy the benefits of thermal water. The outdoor pool, its whirlpools, bubble beds and water currents give you the opportunity to enjoy the landscape and the mountains in all seasons.

Immersing yourself in its 33°C waters will be an unforgettable moment of relaxation after your hikes.

The +: the outdoor pool under the snow, when the flakes swirl and settle delicately on the surface of the water.

• TO PACK IN YOUR LUGGAGE

Backpack

A hiking backpack with a capacity of approximately 35 liters will be useful for carrying your personal belongings during the day. It should contain:

- Base layer (snow gear, warm clothing, spare T-shirt, sunglasses, sunscreen, first aid kit, picnic supplies, personal items, etc.)
- Picnic lunch for the day (bring cutlery)
- Sufficient water (minimum 1.5-liter water bottle)

Shoes

This is one of the most important items. Above all, they must be comfortable, waterproof, and breathable. Good ankle support is essential. If you need to buy a new pair, we recommend trying them on before you start your trip. Don't buy shoes that are too small, as your feet will tend to swell. Be careful with shoes that have been stored in a closet for too long. The lifespan of a shoe is 2 to 5 years. After a certain amount of time, the soles will start to come apart and the seams may tear.

Specific clothing for hiking

- A waterproof windbreaker jacket (Gore-Tex type)
- Two fleece or warm jackets
- Gloves and hat (two pairs if possible)
- Walking pants suitable for snow (waterproof)
- T-shirts (preferably made from breathable materials)
- Change of clothes and personal laundry
- **IMPORTANT: Swimsuit (briefs for men), bathing sandals, and a towel for the spa option**

If you have any doubts or questions about the right equipment for winter hiking in the mountains, don't hesitate to contact us!

Picnic

- Cutlery (fork, folding knife)
- Water bottle (minimum 1.5 L) or a much more practical camelback...

Small items

- A pair of sneakers for the evening
- Sunglasses and sunscreen
- Camera...
- Your toiletries bag
- A flashlight or headlamp
- Toilet paper

- A mini first aid kit: personal medication, Compeed for blisters, elastic bandages, gauze, disinfectant, arnica granules and aspirin for minor injuries... a survival blanket.

Group pharmacy

First aid kit under the responsibility of your guide

Equipment provided

Snowshoes and walking poles

Avalanche transceiver, shovel, and probe
